WHAT CAN I DO?

- **Volunteer** for an organization which is involved in community-based development focussed on basic needs in lesser industrialized countries in Latin America, Africa and Asia. Or consider raising funds for the Canadian Red Cross Malaria Bites campaign to distribute life-saving bed-nets in Africa. Visit www.malariabites.net for more information.
- Organize a larger **global awareness event** in your school. This could involve several classes, or it could even be made available to the entire school.
- Join or start a **global issues club** at your school. Get involved with other students who are committed to social justice and development.
- Help organize a **fundraising event** for an international development or relief project.
- Explore options to learn firsthand about development and the developing world:
